Objective

Aspiring Backend Developer with a strong foundation in Java, Python, and database management. Passionate about building efficient backend systems, developing APIs, and improving application performance. Eager to contribute technical skills and problem-solving abilities to a dynamic development team.

Projects

Swiggy - Online Food Ordering Platform

- **Technologies Used:** HTML, CSS, JavaScript, Node.js, MongoDB
- **Development Environment:** Visual Studio Code, hosted on CodeSandbox
- **Features:**
 - **User Functionality:**
 - Browse restaurant menus and add items to a cart
 - Place orders seamlessly
 - User registration and authentication
 - **Restaurant Manager Functionality:**
 - Add or update menu items
 - Manage restaurant menus
 - **Additional Features:**
 - Cart management for better user experience
 - Location-based restaurant search for enhanced usability
- **Outcome:** Provided a seamless and efficient food ordering experience for users and restaurant managers.

Explore INDIA - Tourism Website

- **Technologies Used:** React, Node.js, Express, Puppeteer, Cheerio
- **Features:**
 - **User Functionality:**
 - View detailed information about selected places
 - Browse high-quality images of destinations
 - Discover nearby attractions dynamically
 - **Web Scraping & Data Handling:**
 - Implemented Puppeteer and Cheerio for real-time data extraction
 - Efficient API handling for fetching and displaying information
 - **Additional Features:**
 - Responsive UI for seamless user experience

- Scalable backend architecture with Node.js and Express
- **Outcome:** Enabled users to explore places with detailed insights and nearby recommendations, enhancing their travel planning experience.

Crypto Currency Dashboard

- **Key Features:**
 - Integration of multiple APIs to provide real-time market data
 - Advanced tools for data visualization using **Google Charts**
 - Search and filtering capabilities for better data accessibility
- **Technical Skills:**
 - API integration and handling dynamic data
 - Proficiency in **Google Charts** for interactive and user-friendly visualizations
 - Designing user-centric interfaces for improved user experience
- **Outcome:** Successfully delivered a platform enabling users to analyse and interpret real-time market data efficiently.

Skills

- **Languages:** Python, JavaScript
- **Web Development:** HTML, CSS, Bootstrap
- **Databases:** MySQL, MongoDB
- **React, Node.js, Express.js**
- **Linux, Aws** (Basics)
- Data Structures, ES6 JavaScript, RESTful APIs, GitHub, Visual Studio Code
- **Soft Skills:** Communication, Teamwork, Critical Thinking

Education

Degree	Institute/school	CGPA/Percentage	Year
B. Tech - IT	Sri Venkateswara College of Engineering, Tirupati	80	2020-2024
Inter - MPC	Sri Chaitanya College, Kurnool	89	2018-2020
10 th – CBSE	St Joseph Public School, Anantapur	77	2017-2018

Certifications & Achievements

- 1stop – Web Development
- Accenture – Certificate of completion of Developer Virtual Experience Program
- Earned a 5-star rating in Problem Solving on HackerRank
- Certified in SQL by HackerRank
- Certification in JavaScript 2023 by Udemy.
- Nptel - The Joy of Computing Using Python
