Professional Summary

Software Engineer with 1+ year of experience in automation engineering and backend development. Strong expertise in JavaScript, Node.js, REST API development, and containerized environments using Docker and CI/CD pipelines.

Experienced in building scalable backend services, improving code efficiency, and ensuring system stability through structured development practices. Passionate about designing maintainable systems and contributing to product-oriented engineering teams.

Professional Experience

- **Software Engineer (Automation & Backend)**
- DURU Corporation (Client: LG Soft India)
  May 2025 – Present

Backend & System Development

- Designed and maintained backend utilities using **Python and JavaScript** to support automation and system workflows.
- Built reusable modules following **modular architecture and OOP principles**.
- Developed and validated **REST API integrations** for internal service communication.
- Improved system maintainability through structured logging and error-handling mechanisms.

CI/CD & Deployment Engineering

- Integrated application workflows into **GitLab CI/CD pipelines** for automated build and execution processes.
- Built and managed **Docker-based environments** to ensure consistent deployment setups.
- Implemented **Docker-in-Docker (DIND)** for long-running execution workflows.
- Debugged build and environment issues through log analysis and pipeline troubleshooting.

Performance Optimization & Reliability

- Reduced execution time by **25–30%** through code refactoring and performance improvements.
- Improved system stability by minimizing runtime failures and handling edge cases effectively.
- Conducted **root cause analysis** to resolve recurring defects.
- Collaborated with development teams to ensure stable releases and maintain code quality standards.

Technical Skills

Programming: JavaScript, Python
Backend: Node.js, Express.js, REST APIs
Database: MongoDB, MySQL
DevOps & Tools: Git, GitLab, CI/CD Pipelines, Docker, Docker-in-Docker (DIND), Linux
Automation: Automation Framework Design, Test Case Automation, REST API Testing
Soft Skills: Communication, Teamwork, Critical Thinking

Education

Degree	Institute/school	CGPA/Percentage	Year
B. Tech - IT	Sri Venkateswara College of Engineering, Tirupati	80	2020-2024
Inter - MPC	Sri Chaitanya College, Kurnool	89	2018-2020
10th – CBSE	St Joseph Public School, Anantapur	77	2017-2018

Certifications & Achievements

- Earned a 5 Star rating in Problem Solving on HackerRank
- Certification in JavaScript 2023 Udemy
- Certified in SQL in HackerRank
