Portfolio

### Objective

Frontend Software Engineer with 2+ years of experience specializing in Java, React, and Angular frameworks. Passionate about building scalable web applications using modern frontend technologies, REST APIs, and microservices. Adept at working in agile environments, optimizing UI performance, and implementing automation testing.

#### **Education**

Degree Institute/School **CGPA/Percentage Year** 

B. Tech - IT Sri Venkateswara College of Engineering, Tirupati 80%

2020-2024

#### **Skills**

- Programming Languages: Java, JavaScript, TypeScript
- Frontend Technologies: React.js, Angular, HTML5, CSS3, Redux
- Backend Technologies: REST APIs, Node.js
- Microservices & Cloud: Docker, Kubernetes, AWS
- Version Control & CI/CD: Git, Bitbucket, Jenkins
- Testing & Debugging: Jest, Selenium, Cypress
- **Development Methodologies: Agile, Scrum**
- Soft Skills: Problem-solving, teamwork, effective communication

## **Work Experience**

# **Software Developer | 2+ Years Experience**

- Developed and maintained web applications using React, Angular, and Java.
- Built RESTful APIs and integrated them into frontend applications.
- Implemented microservices architecture, ensuring scalability and maintainability.

- Automated testing using Jest and Selenium, improving application reliability.
- Worked with CI/CD tools like Jenkins and Bitbucket, optimizing deployment workflows.
- Collaborated with cross-functional teams to enhance UI/UX experiences.

# **Projects**

# **E-Commerce Web Application**

- Developed a React-based UI for an online shopping platform.
- Integrated REST APIs for real-time inventory management.
- Implemented payment gateway integration and user authentication.
- Tech Stack: React, Redux, Node.js, MongoDB, Docker

### **Microservices-Based Dashboard**

- Built a monitoring dashboard for microservices using Angular and Java.
- Deployed services using Docker and Kubernetes on AWS.
- Implemented real-time analytics using WebSockets and GraphQL.
- Tech Stack: Angular, Java, Kubernetes, AWS, Jenkins

#### **Certifications & Achievements**

- AWS Certified Developer Associate
- HackerRank Java (5-star) & Frontend Development (4-star)
- NPTEL Web Development with React & Angular

## **Additional Information**

- Cloud & Virtualization: AWS, Docker, Kubernetes
- Automation & CI/CD Tools: Bitbucket, Jenkins
- API Development & Integration: REST, GraphQL
- Testing & Debugging: Selenium, Jest, Cypress
- Soft Skills: Strong analytical thinking, collaboration, adaptability
