Aggregate: 91%

St Joseph Public School, Anantapur

CBSE School (2018)
Marks: 385

Technical Skills

- **Programming Languages**: JavaScript, Python, C
- **Web Development**: HTML, CSS, ReactJS, Node.js, Bootstrap
- **Database Management:** MySQL, MongoDB
- **Tools & Software**: Git, GitHub, Visual Studio Code

Projects

1. **Swiggy - Online Food Ordering Platform**
   - This project replicates a food ordering system where users can browse menus, add items to their cart, and place orders, while restaurant managers can update the menu with new items. The platform also includes functionality for user registration, user auth, cart management, and location-based restaurant search.
   - Technologies: Frontend, Node.js, MongoDB
   - Link: https://9vnkjc-3000.csp.app

2. **GitHub Profile Dashboard**
   - This application allows users to view comprehensive details of any GitHub account, including information such as repositories, followers, and following count. Additionally, users can explore other developers' profiles by entering their GitHub ID. The dashboard provides a clean and intuitive interface for navigating GitHub profiles in real time.
   - Technologies: Frontend, GitHub Api, Bootstrap
