🌐 **Portfolio**

Objective

Senior Full-stack Developer with 3+ years of experience specializing in **ASP.NET, .NET Core, MVC, C#, Web API, and React.js**. Adept at designing and developing high-performance web applications, optimizing database queries, and mentoring junior developers. Passionate about scalable architecture and modern web technologies.

Education

Degree	Institute/School	CGPA/Percentage	Year
B. Tech - IT	Sri Venkateswara College of Engineering, Tirupati	80	2020-2024

Skills

- **Full-stack Development:** ASP.NET, .NET Core, C#, MVC, Web API

- **Frontend Technologies:** React.js, Angular, JavaScript, TypeScript, HTML, CSS

- **Backend Development:** REST API, Microservices Architecture

- **Database Management:** SQL Server, MySQL

- **Version Control & CI/CD:** Git, Bitbucket, Jenkins

- **Cloud & Virtualization:** AWS(EC2, S3, R53, RDS)

- **Testing & Debugging:** Unit Testing, Automation Testing

Work Experience

Senior Full-stack Developer | 3+ Years Experience

- Developed and maintained scalable web applications using **ASP.NET, .NET Core, and C#**.

- Designed and implemented REST APIs and **microservices architectures** for efficient data processing.

- Built and optimized user interfaces using **React.js, Angular, JavaScript, and TypeScript**.

- Optimized **SQL queries** for better database performance and scalability.

- Integrated cloud-based solutions and **containerization technologies (Docker, Kubernetes)**.

- Mentored junior developers, providing guidance on best practices and coding standards.

- Automated deployment processes using **Jenkins and Bitbucket**.

- Ensured high application performance, security, and reliability through rigorous **testing and debugging**.

Projects

Enterprise Resource Planning (ERP) System

- **Objective:** Developed a scalable ERP system to streamline business operations.

- **Tech Stack:** ASP.NET Core, C#, React.js, SQL Server, Azure

- **Key Contributions:**

    o Designed and implemented microservices-based architecture.

    o Developed REST APIs for seamless communication between modules.

    o Optimized database queries for performance improvements.

E-commerce Platform

- **Objective:** Built a responsive and user-friendly e-commerce application.

- **Tech Stack:** React.js, ASP.NET Core, Web API, SQL Server

- **Key Contributions:**

    o Implemented secure authentication and payment integration.

    o Designed dynamic and scalable UI components.

    o Integrated cloud storage solutions for media assets.

Certifications & Achievements

- **Microsoft Certified: Azure Fundamentals** – Expertise in cloud solutions and virtualization.

- **HackerRank Problem Solving (5-star)** – Strong problem-solving and algorithmic skills.

- **LinkedIn Certified .NET Developer** – Proven expertise in ASP.NET and C#.

Additional Skills & Tools

- **CI/CD & DevOps:** Jenkins, Bitbucket, GitHub Actions

- **Containerization & Cloud:** Docker, Kubernetes, Azure

- **Agile Practices:** Scrum, Kanban

- **Soft Skills:** Leadership, mentoring, problem-solving, collaboration
